SilverDoor Partners with AirPortr

SilverDoor is excited to announce a new partnership with AirPortr, an on-demand secure luggage transportation service that collects, stores and delivers bags between London and its airports. For business travellers in and around the capital, this means lighter, quicker and stress-free travel to and from their serviced apartment.

Upon landing in London, guests are able to leave their luggage with the AirPortr teams in the arrival halls at Heathrow, Gatwick and City airports. An AirPortr driver will then deliver their bag(s) to their serviced apartment at a time that suits them later in the day – or at a later date if required. Guests receive live status updates via text/email, the location of their luggage can be tracked online via real-time GPS locator and all bookings are insured up to £10,000.

Flying out of London is much the same. Luggage is collected from the apartment at the guests preferred time and delivered back to the AirPortr team in airport departures. With one less thing to worry about, business travellers are free to make the most of the final day of their stay.

The AirPortr luggage delivery service will be available to all SilverDoor guests staying in London and the cost is determined by the proximity of the serviced apartment to the airport.

For a full breakdown of costs or for further details on how to book the AirPortr service, [click here](#).
