Furnished Quarters Achieves ASAP Quality Accreditation

(New York, NY) May 14, 2019 – [Furnished Quarters](#), the largest independently owned and operated provider of global temporary housing, is honored to have been awarded ASAP Quality Accreditation by the [Association of Serviced Apartment Providers \(ASAP\)](#). The accreditation is the leading global standard for the serviced apartment industry and one of its most sought-after stamps of approval.

The prestigious accreditation requires that recipients demonstrate the necessary level of compliance in seven key areas of focus: health and safety management, fire risk management, insurance, security, migrant workers, illegal and antisocial behavior, discrimination, and quality and comfort.

In obtaining ASAP Quality Accreditation, Furnished Quarters was rigorously assessed to meet 250 service quality, regulatory and safety criteria, comply with key legal, statutory, health and safety requirements, market all of its properties accurately, deliver a quality guest experience and adhere to the highest possible industry standards. Many companies do not have the infrastructure or product in place to pass these criteria required to gain such a level of approval.

“Furnished Quarters’ stated mission is to deliver exceptional residential experiences with passion, reliability and integrity, always innovating and putting people first. Receiving ASAP Quality Accreditation furthers this mission in a tangible way,” said Steve Brown, CEO of Furnished Quarters. “Our guests can now book and stay with even more confidence in our product and service.”

About Furnished Quarters

Furnished Quarters is the largest independently owned and operated supplier of global temporary housing, offering over 100,000 fully furnished apartments in more than 800 cities around the world. The company, established in 1998 in New York City by brothers Steven and Gary Brown, currently serves more than 5,500 clients, ranging from top Fortune 500 corporations to small businesses. About the Association of Serviced Apartment Providers

The Association of Serviced Apartment Providers (ASAP) is the not for profit trade body representing Operator and Agent members who collectively operate over 100,000 apartments in 19 countries and offer 3 million bed nights per year. Jointly, they actively help our ambitious plans; to grow the sector into one where the majority of all consumers understand the benefits of serviced apartments, and see

them as a safe, modern and credible alternative to more conventional types of accommodation. For further information see main website <http://theasap.org.uk/> and the ASAP Serviced Apartment Directory <http://staywithconfidence.com/>
