Dwellworks Expands Corporate Housing Property Offerings in China

(Cleveland, OH) September 24, 2019 - Dwellworks LLC, a diversified global mobility support services company, is excited to announce its ability to provide corporate housing solutions throughout China. After acquiring Ark Relocation with offices in Shanghai, Beijing and Hong Kong, Dwellworks is now able to present Corporate Housing Providers with both inventory and match-lease solutions. With this addition, Dwellworks will be able to better assist clients undertaking business in the Asia Pacific region.

As Ark Relocation and now as Dwellworks, we have delivered market-leading destination services in over 20 locations in China, including secondary and tertiary cities, for more than 15 years through an established on-the-ground network and a tailored customer service model. Dima Lorenz, Vice President for Dwellworks China, will continue to provide operational and strategic leadership for both corporate housing and destination services.

“The expansion of our business scope in Asia is a huge step for the Dwellworks team. It feels great to be moving forward with our plans to provide corporate housing, rental payment, and property management services to our clients,” explains Lorenz.

In addition to being able to bill in local and foreign currencies, **Dwellworks can now issue rental *fapiao*s** – a Chinese VAT invoice that serves as proof of purchase for goods and services. These capabilities allow the end client in China to take advantage of VAT and CIT deductions. They also provide needed documentation to ensure employees can be reimbursed for their business expenses.

“This is a service we are very keen to put at the disposal of our international corporate housing partners,” mentions Lorenz.

Andrew Horvath, Vice President of Global Account Management for Dwellworks Corporate Housing states, “Dwellworks is pleased to be expanding its service in China, as this will allow our corporate housing providers to accelerate and broaden options to their clients.”
